

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

SCIENTIFIC BOOKS

METEORITES

Their Structure, Composition and Terrestrial Relations.
By Oliver Cummings Farrington, Ph.D., Curator of Geology,
Field Museum of Natural History, Chicago.

This work gives a complete and accurate account of the present knowledge of Meteorites and embodies the results of the latest researches on the subject. "This volume will at once interest the intelligent amateur and be of value also to the trained specialist." American Journal of Science.

Pp. x+233; 65 illustrations. Price \$2. Postage extra, 2 lb. rate.
For sale by COLONIAL PRESS, 1510 East 56th Street,
Chicago, Illinois.

MODERN PROBLEMS OF BIOLOGY

Lectures delivered at the University of Jena. By CHARLES S. MINOT, S.D., LL.D., Professor of Comparative Anatomy, Harvard University Medical School. Author of "A Laboratory Text Book of Embryology." 53 illustrations. 8vo. Cloth, \$1.25 postpaid.

P. BLAKISTON'S SON & CO.

Philadelphia

THE MEANING OF EVOLUTION

By SAMUEL C. SCHMUCKER, Professor of the Biological Sciences in the West Chester State Normal School.

An attempt to give to people whose training is other than scientific some conception of the great story of creation. Pp. viii+298.

THE SCIENTIFIC MONTHLY

An illustrated magazine, devoted to the diffusion of science, publishing articles by leading authorities in all departments of pure and applied science, including the applications of science to education and society. Conducted on the editorial lines followed by *The Popular Science Monthly* since 1900.

Annual Subscription \$3.00; single copies 30 cents

SCIENCE

A weekly journal, established in 1883, devoted to the advancement of the natural and exact sciences, the official organ of the American Association for the Advancement of Science. For twenty years SCIENCE has been generally regarded as the professional journal of American men of science.

Annual Subscription \$5.00; single copies 15 cents

SCHOOL AND SOCIETY

A weekly journal, which began publication on January 2, 1915, covering the field of education in relation to the problems of American democracy. Its objects are the advancement of education as a science and the adjustment of our lower and higher schools to the needs of modern life. Each number ordinarily contains articles and addresses of some length, shorter contributions, discussion and correspondence, reviews and abstracts, reports and quotations, proceedings of societies and a department of educational notes and news.

Annual Subscription \$3.00; single copies 10 cents

THE AMERICAN NATURALIST

A monthly journal, established in 1867, devoted to the biological sciences with special reference to the factors of organic evolution.

Annual subscription \$4.00; single copies 40 cents

AMERICAN MEN OF SCIENCE

A biographical directory, containing the records of about 5,500 scientific men.

Price, \$5.00 net

SCIENCE AND EDUCATION

A series of volumes for the promotion of scientific research and educational progress.

Volume I. The Foundations of Science

By H. POINCARÉ. Containing the authorized English translation by George Bruce Halsted of "Science and Hypothesis," "The Value of Science," and "Science and Method."

Price, \$3.00 net

Volume II. Medical Research and Education

By RICHARD MILLS PEARCE, WILLIAM H. WELCH, C. S. MINOT and other authors.

Price, \$3.00 net

Volume III. University Control

By J. McKEEN CATTELL and other authors.

Price, \$3.00 net

The Scientific Monthly

Entered as second-class matter October 1, 1915, at the post office at Lancaster, Pennsylvania,
under the Act of March 3, 1879

THE SCIENTIFIC MONTHLY is conducted on the editorial lines followed by THE POPULAR SCIENCE MONTHLY since 1900. It publishes as the THE POPULAR SCIENCE MONTHLY published, articles appealing especially to educated readers as opposed to purely popular matter intended for the public generally, and for such a journal THE SCIENTIFIC MONTHLY appears to be the more fitting name. The editorial management, publication department and typographical form are the same as have characterized THE POPULAR SCIENCE MONTHLY during the past fifteen years, and have made it an important agency for the advancement and diffusion of science.

CONTENTS OF THE AUGUST NUMBER

Changing Conditions in the Kentucky Mountains.
B. H. Schoeckel.
Sir Ronald Ross and the Prevention of Malarial
Fever. Major General William C. Gorgas and
Dr. Fielding H. Garrison.
War Selection in the Philippines. Dr. Edwin
Bingham Copeland.
Essentials in the Study of Labor Organizations.
Professor Frank T. Carlton.
The Environment of the Ape Man. Professor Ed-
ward W. Berry.
The Origin and Evolution of Life upon the Earth.
Dr. Henry Fairfield Osborn.
The Rôle of Service in Evolution. Professor Hervey
Woodburn Shimer.
The Relation of Heredity to Cancer in Man and
Animals. Dr. C. C. Little.
The Progress of Science:
The Epidemic of Infantile Paralysis; Cinchona
as a Tropical Station for American Botanists;
Irrigation in British Columbia; Scientific Items.

CONTENTS OF THE SEPTEMBER NUMBER

The Scientific Investigation of Cancer. Dr. Leo Loeb.
Insect Migrations as related to those of Birds. Howard
J. Shannon.
Substances without Chemistry. Dr. John Waddell.
A Glance at the Zoology of To-day. Professor H. V.
Wilson.
The Oceans, Our Future Pastures. Zonia Baber.
What's in a Job? Dr. Benjamin C. Gruenberg.
Science and Feminism. Dr. Robert H. Lowie and Dr.
Leta Stetter Hollingworth.
Mysticism in War. Dr. Elsie Clews Parsons.
The Original and Evolution of Life upon the Earth. Dr.
Henry Fairfield Osborn.
The Progress of Science.
Scientific Appointments and the Government; A
National Research Council; The Epidemic of Infantile
Paralysis; Scientific Items.

For teacher, lecturer and entertainer—or for the home.

Bausch^{and} Lomb Balopticon

THE PERFECT STEREOPTICON

Its sharp, evenly illuminated images are made possible by the superior optical equipment and the new gas-filled Mazda lamp, as recently applied to the Balopticon. This gives an illumination as brilliant as the old style arc, at far less current expense—is absolutely automatic and noiseless.

Models for lantern slides \$20 and up; models for projecting opaque objects (maps, photos, specimens, etc.) \$35 and up; combined models for both forms, with instant interchange, \$45 and up.

Model C (illustrated) for slides only \$35.

Write for illustrated descriptive price list of all models.
